DOE will review the Contractor's QA Plan and determine if it meets the requirements of EM-QA-001. If DOE determines that the Contractor's QA Plan is not compliant with EM-QA-001, it will give the contractor an opportunity to revise its QA Plan in order to make it compliant. If the contractor is unable to make its plan compliant, then the government reserves the right to terminate the contract for cause. Under no circumstances shall the contractor perform any services under the contract until DOE has approved its QA Plan.

The Contractor shall, at a minimum, annually review and update as appropriate, their QAP. The review and any changes shall be submitted to DOE for approval. Changes that reduce the level of commitments affecting nuclear safety shall be approved before implementation by the Contractor.

To: (now on p.44)

DOE will review the Contractor's QA Plan and determine if it meets the requirements of EM-QA-001. If DOE determines that the Contractor's QA Plan is not compliant with EM-QA-001, it will give the contractor an opportunity to revise its QA Plan in order to make it compliant. **However, after providing documented justification and rationale, the contractor may request an exemption to this requirement, which may be approved by**

DOE on a case by case basis. If the contractor is unable to make its plan compliant, then the government reserves the right to terminate the contract for cause. Under no circumstances shall the contractor perform any services under the contract until DOE has approved its QA Plan.

The Contractor shall, at a minimum, annually review and update as appropriate, their QAP. DOE's intent is not to substantially add to the contractor's existing QA program, except where deficiencies exist and are identified; DOE intends to streamline and minimize impacts of EM-QA-001 compliance while enhancing the quality of waste treatment services to be provided. The review and any changes shall be submitted to DOE for approval. Changes that reduce the level of commitments affecting nuclear safety shall be approved before implementation by the Contractor.

### **H.33 ESCALATION**

Section J, Attachment B, Price Lists, includes firm fixed unit prices for the five (5) year ordering period of the contract. For task orders which extend beyond the ordering period, the firm fixed unit prices shall be escalated for years 6-10, as applicable. Escalation shall be based on a standard 3.8% escalation rate over the previous years' prices or based on escalation of the Consumer Price Index (CPI), whichever is lower. For purposes of this contract, the CPI is the CPI for all urban customers – U.S. City average all items, 1982-4 = 100 (Series ID: CUUR0000SAO). The annual escalation based on CPI shall be determined based on an annual comparison and shall be calculated using the base period of the CPI for the preceding calendar year to the CPI for the current calendar year; the annual escalation shall be rounded to the nearest tenth of a percent. In no case shall the annual escalation exceed 3.8%. The escalation determination will be made each year by the DCO.

### **H.33 ESCALATION**

Section J, Attachment B, Price Lists, includes firm fixed unit prices for the five (5) year ordering period of the contract. For task orders which extend beyond the ordering period, the firm fixed unit prices shall be escalated for year 6, as applicable. Escalation shall be based on a standard 3.8% escalation rate over the previous years' prices or based on escalation of the Consumer Price Index (CPI), whichever is lower. For purposes of this contract, the CPI is the CPI for all urban customers – U.S. City average all items, 1982-4 = 100 (Series ID: CUUR0000SAO). The annual escalation based on CPI shall be determined based on an annual comparison and shall be calculated using the base period of the CPI for the preceding calendar year to the CPI for the current calendar year; the annual escalation shall be rounded to the nearest tenth of a percent. In no case shall the annual escalation exceed 3.8% **or drop below 0%.** The escalation determination will be made by the CO prior to the end of the term of the contract. *Below is a sample of this calculation:*

*The rate escalation for June 30, 2009 – June 29, 2010, was determined by calculating the average 12 month CPI-U for the baseline period (May 2008 through April 2009 = 215.1493), and comparing it to the average CPI-U for the previous 12 month period (May 2007 through April 2008 = 210.1067). Based upon an annual comparison of these two periods, the CPI-U was shown to increase 2.4%, which shall be the escalation rate for June 30, 2009 – June 29, 2010.*
